

FPL Services.

Lower energy costs for educational facilities

FPL Services – Leading Educational Excellence

FPL Services, LLC (FPLS) goes above and beyond to meet the unique high-performance needs of educational facilities. Service isn't just part of our name, it is what our customers depend on from FPLS. As a total energy solutions provider using industry leading energy expertise, operational discipline, and innovative technology, our customers consider FPLS an invaluable resource for developing energy management plans to save money, improve efficiencies, and reduce consumption.

With more than 20 years of success in developing and delivering turn-key energy and water conservation systems, FPLS combines the innovation of NextEra Energy, Inc. with the operational discipline of an ESCO who has never missed a savings guarantee. As a part of the NextEra Energy family of companies, FPLS is backed by more than 80 years of energy leadership from Florida Power & Light Company and the financial strength of NextEra Energy, one of the nation's largest providers of electricity-related services and America's number one provider of solar and wind energy.

We partner with schools to identify energy-saving opportunities, complete feasibility studies, quantify sustainability goals, and provide a firm, fixed-price proposal – with a guarantee of energy savings.

Expert In Energy Services

FPLS has been delivering energy savings expertise for more than two decades – even before the inception of the state and federal regulations governing this economical approach to installing energy-efficient equipment, water conservation measures, and other upgrades. Our customers give us high marks for our commitment to performance, the innovative and customized solutions we design, and our ability to understand the unique needs of every project.

ESCO Services

- » Engineering and design
- » Project development
- » Project implementation
- » Construction management
- » Third-party financing
- » Sustainability and renewable solutions
- » Project commissioning
- » Equipment maintenance

Renewables

FPLS can evaluate, analyze, and implement sustainability plans to improve your educational environment. Through energy efficiency projects, FPLS partners with customers to reduce energy and water usage, calculate and reduce their carbon footprint, and incorporate renewable energy systems into energy management and long-term renewable generation objectives.

Customers First

We understand how intricate this process can be and will work closely with you through every step. As your partner, we will go above and beyond your expectations to deliver proven, innovative solutions to meet your needs. FPLS provides:

- » A proven track record of long-term customer satisfaction
- » Project and vendor neutrality – we use the best and most cost-effective solutions for every job
- » Firm fixed pricing
- » Measurement and Verification (M&V) experts
- » Turn-key energy efficiency and sustainability services
- » A strong renewable portfolio and expertise
- » Superior engineering analysis, detail, and process
- » Innovative solutions utilizing the latest technology

Proven Experience

- » Significant savings in annual electric, water and natural gas costs
- » No capital, up-front or out-of-pocket funds required
- » Investment recovered through utility and O&M realized savings
- » Never missed a savings guarantee – all savings are verified and guaranteed

NAESCO Accreditation

- » Accredited NAESCO company
- » Founding member and instrumental in establishing NAESCO's guidelines
